AVDI SOFTWARE

included in the Annual Subscription

The AVDI (Abrites Vehicle Diagnostics Interface), combined with the Annual Subsciption, offers a comprehensive suite of functionalities essential for professional locksmiths and automotive technicians.

This powerful premium tool provides advanced capabilities such as key programming, module adaptation, ECU programming and coding for various vehicle makes and models. Fully customizable, the AVDI can be upgraded with additional software licenses tailored to your specific needs and area of expertise.

General Diagnostics

- Complete vehicle diagnostic scan for all supported car brands
- Read and clear diagnostic trouble codes (DTC)
- Display live values from the modules of the vehicle
- Perform Input/Output actuator tests
- Service interval reset

PassThru compatibility

- J2534 PassThru driver compatible with the international SAE standards
- Emulation of different interface units to access 3rd party software products and original equipment manufacturer software products such as VW/Audi/Seat/Skoda/Bentley/Lamborghini ODIS, Toyota/Lexus/Scion Techstream, DAS/Xentry – Star Diagnosis, BMW - E-Sys, INPA, EDIABAS, NCS Expert, NFS and many others

Included licenses: PT002

Explore and enhance your AVDI
by browsing the available upgrades
in our online store!

MERCEDES-BENZ
VEHICLES

INCLUDED LICENSES:

MN002	MN005	MN008	MN011	MN014	MN017	MN020	MN023	MN026
MN003	MN006	MN009	MN012	MN015	MN018	MN021	MN024	MN027
MN004	MN007	MN010	MN013	MN016	MN019	MN022	MN025	MN028

Key Programming

- All keys lost and spare key programming and EZS password extraction for all DAS3/FBS3 Mercedes-Benz vehicles via OBDII (e.g. W204/W207/W212/W218/W220/W221/W176/W164 and others)
- All keys lost programming and EZS password extraction for all DAS 2/ DAS 2a/ DAS 2b Mercedes-Benz vehicles by dump from IFZ/WSP and via OBDII (e.g. W168/W163/W202 and others)
- Enable and Disable key positions

Module adaptation

- Service password reading used for making all DAS-related modules virgin
- Adaptation/Personalization and Activation of all DAS/FBS modules - Read/Save/Update/Transfer FBS Data
- Make each DAS/FBS module virgin

Coding

- Read/Save/Update/Transfer Coding (the only way to avoid online SCN coding)
- SCN coding via OBDII
- CPC modifications via OBDII – VMAX limiter removal, Exhaust flaps adjustment, Torque limiter adjustment via OBDII
- Enable Video in Motion via OBDII
- Mercedes-Benz eVito Speed Limit calibration via OBDII

Cluster recalibration

- Cluster recalibration for vehicles via OBDII (up to 2014)

Airbag

- Clear crash data from Bosch / Temic / TRW airbags via OBDII (up to 2010)

Others

- ESL and 7G Tronic Reset via OBDII
- ASSYST and ASSYST PLUS
- SBC Counter reset via OBDII

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for MERCEDES-BENZ Vehicles

TOYOTA/LEXUS/SCION VEHICLES

INCLUDED LICENSES:

TN004, TN005, TN006, TN007, TN008, TN010

Key Programming

- All keys lost programming for all vehicles up to 2018 (G-type and H- type mechanical and smart keys) via OBDII
- Smart system reset
  - All smart systems (up to 2018)
  - Smart systems in US vehicles (2019+) with selective address “AA” (e.g. Avalon 2018+ AA DST-AES, RAV4 2018+ AA DST- AES, Corolla 2018+ AA HT-AES, Mirai 2020+ AA DST-AES)
- Emergency Start via OBDII (vehicles with smart systems up to 2018)
- Master Key emulation using our ZN039-2 Transponder emulator
- Cloning of ID67, ID68, ID70 and Texas fixed transponders

ID-box reset

- ID-box reset for vehicles up to 2018

ECU Reading/Writing

- ECU flasher for EDC15 and EDC16 Engine Control Units
- ECU memory manager – reading of flash memory/EEPROM of Engine Control Units produced by BOSCH (1ND-TV 1.4 D4D, 4ZZ-FE 1.4, 1KR-FE 1.0, 1NR-FE 1.33, 1SZ-FE 1.0). For ECM types 1ND-TV flash programming is also available

Cluster Recalibration

- Cluster recalibration for Toyota vehicles with VDO/Continental dashboard with microcontroller 70F35xx (Auris 2 (2016+), Avensis (2016+), CH-R, Corolla (2016-2019), Tacoma and others)

Dump Tool

- Reset by dump of immobilizers and smart systems with Texas DST- 128 keys
- ECU virgin
- Key preparation by dump
- Instrument cluster recalibration
- Immobilizer bypass
- SRS (airbag) crash data reset

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for TOYOTA/LEXUS/SCION Vehicles

RENAULT
VEHICLES

INCLUDED LICENSES:

RR002, RR003, RR005, RR006, RR007, RR008, RR010, RR012, RR015, KT004

Key Programming

- All keys lost programming for vehicles up to 2014 via OBDII
- All keys lost programming for Renault Clio IV via OBDII (up to 2014 before facelift)
- Spare key programming for Renault Twingo III/Smart 453 via OBDII

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for RENAULT Vehicles

JAGUAR/LAND ROVER (JLR) VEHICLES

INCLUDED LICENSES:

JL002, JL003, JL004, JL005

Key Programming

- All keys lost programming for all vehicles with unlocked KVM (DPLA, FK72, HPLA) via OBDII (up to 2018) (e.g. Land Rover Discovery, Defender, Freelander, Range Rover; Jaguar F-type, XF, XJ and others)
- All keys lost, remote and keyless programming for all Jaguar and Land Rover vehicles with locked RFA produced between 2018 and 2020 (JPLA) via OBDII

Cluster Recalibration

- Cluster recalibration for all vehicles up to 2014 via OBDII

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for JAGUAR/LAND ROVER (JLR) Vehicles

BMW/MINI VEHICLES

INCLUDED LICENSES:

BN002, BN003, BN004, BN006, BN007, BN008

Key Programming

- EWS1/EWS2 key programming by EWS dump
- All keys lost and spare key programming for CAS1 and CAS2
- All keys lost* and spare key programming for CAS3/CAS3+ (All E- series vehicles)

*BN012 license is required in case the DME/DDE needs to be reflashed when all keys are lost

Guided Functions

- Entering and exiting transport mode, Service interval reset, DPF Replacement, DPF Regeneration, FRM short circuit reset, Smooth running DME/ DDE setup, EGS adaptation reset for ZF 8HP and 6HP, enabling parking brake workshop mode, Injector calibration, Starting Torque adjustment and others

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for BMW/MINI Vehicles

VAG VEHICLES

INCLUDED LICENSES:

VN001 VN003 VN004 VN005 VN006 VN010 VN012 VN013 VN015 VN016 VN018

Key Programming

- All keys lost and spare key programming for VW/Audi/Seat/Skoda/ Lamborghini/Bentley
  - Immo 1 and 2 vehicles (1996-2003) - Supported models: Audi A4/A6/A8, Seat Ibiza/Leon/Toledo, Skoda Octavia/Fabia, VW Polo/Golf/Beetle/Passat and all others
  - Immo 2 and 3 vehicles (2001-2008) Supported models: VW Golf IV/Audi A4 with RB4 dashboard (2001-2004) and RB8 dashboard (2004-2008), Bentley Continental and all others
  - Immo 3 and 3+ vehicles (2003-2014) Supported models: Passat B6/CC, Audi A3 until 2012, VW Touareg/Phaeton, Bentley Continental and all others
  - Immo 4 vehicles Supported models: Audi A1, Golf V/VI, Audi A6/Q7 with EZS-Kessy and all others
  - Immo 5 vehicles (2009-2018) Supported models: Audi A4/A5/Q5/SQ5 with BCM2 immobilizer (spare key programming for models up to 2018 and all keys lost programming up to 2013), Audi A6/A7/A8 (spare key programming for models up to 2018), VW Touareg with BCM2 immobilizer (spare key programming for models up to 2018)
- Remote control adaptation

Module Adaptation

- Module adaptation for all Immo 3/Immo 3+ vehicles (dashboard/immobilizer)
- Steering Lock adaptation for Touareg/Cayenne/A8 (2003-2010)

Cluster Recalibration

- K-line Instrument clusters (KWP1281 or KWP2000)
  - Instrument Cluster (VD066, VDO86, Motometer)
  - Audi A4 B5
  - Audi A8
  - Instrument clusters produced by Magneti Marelli
  - Audi A4 and Golf IV RB4 and RB8 CRYPTO
  - VW Phaeton/Touareg, Bentley Continental, Porsche Cayenne
  - Lamborghini Gallardo
  - Others
- CAN Instrument clusters (KWP2000 over TP2.0 or UDS)
  - VDO/Micronas/Visteon -2007 (CAN TP2.0)
  - VDO with NEC processor 2009+ (CAN UDS)
  - Johnson Controls (JCI) with NEC processor and 95320 EEPROM (CAN UDS)
  - Magneti Marelli with 9S12 processor (CAN UDS)
  - A8(4H)/A7(4G)/A6(4G)/Touareg (7P) with 95320 memory (CAN UDS)
- Repair DEF error for Audi A4 BOSCH RB8 CRYPTO 2004+and Instrument Cluster Audi A4 BOSCH RB4 CRYPTO 2001+
- DSG recalibration – used for resetting the working hours in the DSG transmission control units produced before 2008

ECU Functionalities

- Software update of modules with FRF/SGO files
- Read/Write EDC16 Flash and update Flash counters
- DPF OFF for EDC16 and EDC17 Engine Control Units
- Immo 3/4 ECU authorization - used for emergency start and ECU reflashing with FRF/SGO files (no working key is required for the authorization)
- PIN and CS extraction from 9GV ECU used for all keys lost programming and ECU adaptation

Guided Functions

- Enable/disable cruise control, change language, enable/disable Start/Stop system, change Startup animation, enable Lap timer and many others for A6/A7/A8 and many others

Advanced Diagnostic Functions

- Calibrations (e.g., steering angle calibration)
- Short coding calculator with short coding helper
- Adaptations for all VAG UDS models
- Basic settings - access to all available basic settings for each module for all VAG UDS models (e.g. autoleveling headlights calibration, trunk calibration, DSG Clutch Kiss points calibration, Bleed brakes, Steering angle sensor, AC flap motors and many others)
- Long coding options – read/change all long coding parameters for all VAG UDS models
- Wireless CarPlay/GoogleAuto configuration for all VAG UDS models
- Program Flash database (.FRF and .SGO files) available for reprogramming and updating different electronic control units such as ECU, TCU, gateway, multimedia, etc.

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for VAG Vehicles

SMART VEHICLES

INCLUDED LICENSES:

MN008, MN009, MN012, MN014, RR015

Key Programming

- All keys lost programming for SMART 450, 451, 452, 454 via OBDII
- Spare Key programming for SMART 453/ Renault Twingo III via OBDII
- Emergency start via OBDII – SMART 451, 454

Dashboard Recalibration

- Dashboard calibration in SAM module via OBDII
- Cluster recalibration via OBDII

Module Adaptation

- Gearbox adaptation via OBDII
- Reflashing and renewal of SAM/ZE
- SAM/ECM synchronization via OBDII

Other Procedures

- SOFTOUCH activation - switching from semi-automatic to automatic transmission
- Cruise control activation via OBDII

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for SMART Vehicles

PEUGEOT/CITROEN (PSA) VEHICLES

BSI Functions

- Service interval reset
- Clear faults log
- Verify/set PIN
- Virginize

Change ID

- Change ID in BSI, Telematics, Airbag, MDS

Airbag

- Clear crash data in some Airbag modules by dump

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for PEUGEOT/CITROEN (PSA) Vehicles

FORD/MAZDA
VEHICLES

INCLUDED LICENSES:

FR004, FR005, FR006, FR007, FR008, FR009, MZ001, MZ002

Key Programming

- All keys lost and spare key programming for all Ford, Mazda, Lincoln, and Mercury vehicles up to 2022
  - Ford: Transit 2022, Fiesta, Focus, Kuga, Fusion, Puma, Ranger, Mondeo, Edge, Escape, Expedition, Mustang, EcoSport, New KA, Falcon, Everest and others
  - Lincoln: Aviator, Blackwood, Corsair 2020+, LS, Nautilus, Navigator, Zephyr, Mercury and others
  - Mercury: Grand Marquis, Mariner, Milan, Freestar, Monterey, Sable and others
  - Mazda: 2 and 3 up to 2019, 5, 6, Bongo, CX-3, CX-5, CX-7, CX-9, MX-5, RX-8
  - Mazda: 3 2020+, CX-30 2020+
- Incode calculator

Cluster Recalibration

- Cluster recalibration for all Ford and Mazda vehicles up to 2017

ECU Functions

- Speed Limiter modification
- DPF regeneration
- ECU exchange for various models of Ford and Mazda

Coding

- Central Car Configuration (CCC) modification

Airbag

- Airbag Clear Crash and Renew functionality

PATS Initialization/ module adaptation

- Mazda: 3 2020+, CX-30 2020+ and the related models

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for FORD/MAZDA Vehicles

SUZUKI
VEHICLES

Key Programming

- Suzuki Grand Vitara and Swift (2005-2008)

HONDA
VEHICLES

Key Programming

- All keys lost and spare key programming for all vehicles up to 2022 via OBDII

TESLA VEHICLES

INCLUDED LICENSES:

TS001, TS002

Key Programming

- All keys lost and spare key programming for Tesla Model S via OBDII

Airbag Functions

- Bosch - Airbag exchange, read/update data in the module (modify EEPROM), clear crash data, change VIN
- Delphi - read eeprom, clear crash data (Model S/X and Model 3)

Service Functions

- Entering the parking brake in service mode, IBST VIN learn and reset, Test pedal offset, Dim central, left, or right mirrors, Head Lamp communication test, HOMELINK communication test, Window calibration on all doors, NFC amplitude reading, Front left and Rear right brake bleed, Front right and Rear left brake bleed, Thermal Coolant Air Purge, Thermal Fill Drain, Steering Column Calibration, 12V Reset and many others
- Showing diagnostic alerts

FIAT CHRYSLER AUTOMOBILES (FCA) VEHICLES

INCLUDED LICENSES:

FN002	FN006	FN008	FN011	FN013	FN016	CR005
FN005	FN007	FN009	FN012	FN014	FN017	CR007

Key Programming

- All keys lost and spare key programming, and transponder preparation for the following vehicles via OBDII:
  - Fiat: Stilo, Punto, Palio, Panda, Idea, 500, 500L, 500X (metal bladed keys), Doblo, Qubo, Fiorino, Ducato (up to 2019)
  - Alfa Romeo: 147, GT, MiTo, Giulietta, 159, Brera
  - Jeep: Compass, Grand Cherokee, Wrangler (up to 2019)
  - Dodge: Challenger, Charger, Viper, RAM (up to 2019)
  - Ferrari: 612, FF, 599, F12, 458, California (metal bladed keys)

Configuration Data Reading/Writing

- BCM read/update of Configuration Data via OBDII

Cluster recalibration and adaptation

- Cluster recalibration for Fiat, Chrysler, Jeep, Grand Cherokee, Lancia, Maserati, and RAM vehicles via OBDII (up to 2022) (e.g. models such as Jeep Wrangler (JL) 2018+, Jeep Gladiator (JT) 2020+, Maserati Levante, Jeep Grand Cherokee (WK2) 2011-2022, Dodge RAM (DT) 2019+ and many others)
- Read/Update Cluster Configuration Data (used for replacing instrument cluster to avoid data mismatching)

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for FIAT CHRYSLER AUTOMOBILES (FCA) Vehicles

OPEL / VAUXHALL / GENERAL MOTORS VEHICLES

INCLUDED LICENSES:

ON006, ON007, ON010

Read and Update flash, and modification of the Operational memory and maps

Delphi Delco, Denso, Magneti Marelli, Siemens and Bosch ECUs via OBDII

Security Code Programming

ID (VIN) Programming

CAN configuration and programming – injector programming, programming of immobilizers and others

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for OPEL/VAUXHALL/GENERAL MOTORS Vehicles

PORSCHE
VEHICLES

INCLUDED LICENSES:

KT012

Key Programming

- All keys lost and spare key programming by dump from the front BCM (9S12 Motorola MCU) for Porsche models via OBDII (Panamera (970) 2010+, Cayenne (92A) 2011+, Boxster (981) 2012+, Cayman (981) 2012+, 911 (991) 2012+, Macan 2014+)

Change ID in Various Modules

Adaptation Channels - Used for Adaptation of Various Components/Modules

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for PORSCHE Vehicles

HYUNDAI/KIA VEHICLES

INCLUDED LICENSES:

HK003, HK005, HK007

Cluster Recalibration

- Cluster recalibration, read/update internal configuration data of the instrument clusters via OBDII (2011-2013 vehicles)
- Cluster calibration for instrument clusters with 93c56 EEPROM (2004-2008) - Accent, Vera Cruz, H1 and others

ECU Functions

- Calibration in EDC15 via OBDII
- Read/Update Configuration data and Flash in EDC15 (which is also the Immobilizer)

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for HYUNDAI/KIA Vehicles

VOLVO
VEHICLES

INCLUDED LICENSES:

VL003, VL004

Key Programming

- All keys lost and spare key programming for Volvo vehicles with Hitag2 keys via OBDII (Volvo V40 / V40 Cross Country (up to 2016), V60 / V60 Cross Country (up to 2018), V70 (up to 2016), S60 / S60 Cross Country (up to 2018), S80 (up to 2016), S80 (up to 2016), XC60 (up to 2017), XC70 (up to 2017))

  *The vehicles must be equipped with the following Delphi CEM modules: 6G9T-14c256, 7G9T-14c256, AG9T-14c256, BG9T-14c256, CG9T-14c256

Dashboard Recalibration

- Cluster recalibration and CEM calibration via OBDII (Volvo S40, V40 (up to 2016), V50, S60 (up to 2018), S80 (up to 2016), V70 (up to 2016), XC60 (up to 2017), XC70 (up to 2017), XC90 (up to 2015)
- Read/Update Cluster Configuration data (used for replacement of the cluster)

Coding

- Read/Update Central Car Configuration

SUBARU
VEHICLES

INCLUDED LICENSES:

SB001

Key Programming

- All keys lost and spare key programming for vehicles via OBDII (up to 2020)
- Smart system reset for vehicles via OBDII (up to 2020)

Module Adaptation

- Adaptation of both new and used ECU (ECM) and smart ECM

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for SUBARU Vehicles

MITSUBISHI VEHICLES

INCLUDED LICENSES:

MI002, MI003, MI004, MI005, MI006, MI007

Key Programming

- All keys lost and spare key programming for vehicles with regular and smart keys via OBDII (2005-2016)
- Access to a database with default PIN codes
- Registration/programming of a key by its (chip) ID
- Use .PWF file for key programming (download a security application file (.PWF) from the Mitsubishi site, generated by providing the VIN)
- Remote Control Reception Check (by pressing lock/unlock buttons)

Module Adaptation

- Steering Lock Unit adaptation
- Reset immobilizer to factory state (performing a factory-state reset of the immobilizer module). N.B.! After the procedure is complete, the immobilizer will require adaptation to the ECU as well as key programming (available for some KOS systems - Outlander 2014+, Attrage/Mirage 2014+)

Airbag

- Clear crash data for Bosch and Denso Airbag modules by dump (Mitsubishi Colt, Carisma, Galant, Grandis, L200, Lancer, Outlander, Pajero, Space Wagon, Strada)v

Cluster Recalibration

- Cluster recalibration by dump (Mitsubishi L200, Outlander)

Other Functionalities

- Key code and VIN Number registration to ECU

BIKES, SNOWMOBILES, WATER SCOOTERS

INCLUDED LICENSES:

BK002

Key Programming

- Aprilia
- BMW with EWS4 immobilizers by dump - R1200GS (2013+), C600 Sport/C600 GT (2012+), K1300R (2010+), K1600GT/GTL (2011+), F800GT/GSA (2013+)
- Bikes with MAGNETI MARELLI MIU1/MIU2/MIU4
- BRP models: Ski-Doo, Sea-Doo, Can-Am (2006-2015)
- Gilera
- Harley Davidson (for models equipped with HFSM or TSSM)
- Piaggio
- Vespa
- Vehicles with CAN-based BCMs

Read/Update Configuration Data by OBDII

- ECUs:
  - Efi Technology ACI1 / AC2I / AC5I / AC8I / AC13I / AC21I / AC23I / AC19I / AC20I / AC2 5I / AC27I / AC32I
  - Magneti Marelli ACI100/ACI50x/ACI60x/IAW 15/IAW 5AM/MIU G3/RIU1
  - Philips DiTECH
- Immobilizers:
  - Magneti Marelli IMM003/ IMM006

Additional Functionalities for Harley Davidson:

- Motorcycle arming and unarming
- Read/Update PIN Code

DAF TRUCKS
VEHICLES

INCLUDED LICENSES:

DF002

Key Programming

- All keys lost programming for DAF trucks via OBDII (2002-2023)

J1939-COMPLIANT VEHICLES
(BUSES, TRUCKS, HEAVY-DUTY MACHINERY, MARITIME VEHICLES AND OTHERS)

Complete vehicle diagnostic scan

Read and clear diagnostic trouble codes (DTC)

Display live values from the modules of the vehicle

Freeze frame

ECU PROGRAMMING TOOL

INCLUDED LICENSES:

EP001, EP003, EP004

Full reading/writing/updating Dflash, Internal/External Pflash, Map Files, and checksum correction of Engine Control Units by bench (direct connection), boot mode and diagnostics (OBDII), as well as Virtual reading of Flash, Maps and Bootloader

- Bosch EDC17/MED17
- Delphi
- Continental/Siemens SIMxx
- Kefico

Full reading/writing/updating Dflash, Pflash, Map Files, and checksum correction of Engine Control Units and Transmission control units by bench Maps and Bootloader

- MD/MD1 ECU with SPCxxx and TC2xx
- MG/MG1 ECU with SPCxxx and TC2xx
- VGSNAG3 9G-tronic TCU
- VGS2-FDCT TCU
- ZF 8HP TCU
- DQ381 TCU
- Getrag 7DCT300 TCU

Full reading/writing/updating of Pflash and checksum correction of CPC/CEPC modules by diagnostics (OBDII) and boot mode for Mercedes- Benz and SMART vehicles

- Delphi CPC2.10/2.20 (CEPC_MFA)
- Delphi CPC2.3/2.4 (CEPC)

N.B. If you would like to upgrade the functionality of your AVDI with additional (paid) licenses for ECU PROGRAMMING TOOL

ABRITES TOOLBOX

Security access calculator for Mercedes-Benz vehicles – seed-key calculator.

Example: unlocking of Instrument Cluster for programming and coding purposes; unlocking the firewall to enable diagnostics and many others

Heavy-duty master control module (MCM) and Adblue control module (ACM) modifications – checksum correction of EEPROM data in MCM, MCM2.XX control units and ACM

Used for modification of data such as mileage and working hours of heavy-duty vehicles, equipped with MCM/ACM

Immo off by dump – used for disabling the immobilizer in EDC17/MED17 ECUs

N.B. If you would like to download the Abrites Tool Box

FOR OPTIMAL UTILIZATION
OF THE BASE SOFTWARE

MERCEDES-BENZ VEHICLES

ZN151 - Abrites Distribution Box

ZN003 PROTAG programmer V2 with TA31

ZN076 IR adapter

ZN030 Abrites ABPROG programmer

TOYOTA VEHICLES

ZN003 PROTAG programmer V2 with TA31

ZN069 Toyota mechanical key (H-type) adapter set

ZN039-2 Toyota Transponder Emulator

TA36 Abrites DST 40bit/DST+ 80bit Electronic key head

TA68 Abrites DST-AES transponder emulator

TA64 Abrites HITAG-AES transponder emulator

RENAULT VEHICLES

ZN003 PROTAG programmer V2 with TA31

ZN037 Renault CAN adapter

ZN047 Field Detector Renault card 125 kHz

FOR OPTIMAL UTILIZATION
OF THE BASE SOFTWARE

HONDA VEHICLES

ZN003 PROTAG programmer V2 with TA31

ZN056 Honda K-Line adapter

JAGUAR/LAND ROVER VEHICLES

ZN003 PROTAG programmer V2 with TA31

CB012 Direct CAN-BUS Connection Cable Set

TA66 Abrites Key for 2018+ JLR vehicles (433 MHz)

OR

TA67 Abrites Key for 2018+ JLR vehicles (315 MHz)

FCA VEHICLES

ZN003 PROTAG programmer V2 with TA31

ZN038 Fiat/Chrysler CAN adapter

J1850 SAE J1850 adapter for AVDI

SMART VEHICLES

ZN003 PROTAG programmer V2 with TA31

FOR OPTIMAL UTILIZATION
OF THE BASE SOFTWARE

TESLA VEHICLES

ZN087 Cable set for Tesla Model S/X and Model 3

BMW/MINI VEHICLES

ZN003 PROTAG programmer V2 with TA31

ZN049 Adapter for connection with K-Line BMW vehicles (PassThru ONLY)

ZN030 ABPROG Programmer Set with Software Activation

PORSCHE VEHICLES

ZN003 PROTAG programmer V2 with TA31

SUBARU VEHICLES

ZN003 PROTAG programmer V2 with TA31

TA41 Subaru DST-AES Emulator

ZN066 Subaru transponder emulator

TA68 Abrites DST-AES transponder emulator

MITSUBISHI VEHICLES
