TEXAS EQUIPMENT

C-gun spot welder(For Steel car body)

TELR-7C

Brief: TELR-7C is for professional car body workshops. It allows spot welding 2 faces with a pneumatic clamp; welding mono point 1 face with a gun for small repairs, hammered, patchwork and nails poses, pins, discs, rivets. Moreover, it supply's steel and stainless steel welding with 12 functions,we set the recommendation current and time value. TELR-7C features:

1.Automatic over-heated protection function;
2.Repair functions for different steel auto body include stainless steel and other materials ;
3.One side welding and both sides welding can be chosen;
4.Heat,meson,vertical pulling,spot welding,flatten,waveform line,whorl post,triangle shim etc welding;
5.Possess gas filtrate and regulate function;
6.Unique cable rack,have front-back flexible function,Can turn 360 degree;
7.Triangle shim direct spot welding repair;
8.LCD digital graph display;
9.Large puller and waveform welding;
10.Equipped infinitely current regulate,for any options.

Technical parameter	
Model	TELR-7C
Power supply	2ph 400V or 1ph 230V 50/60Hz
Max current	10000A
Normal power at 50%	12KVA
Max power	60KVA
Thermal class	F
Protection degree	IP21
Max air pressure	1.0Mpa(10Bar)
Output voltage	2-13V
Welding depth	1.0+2.0mm (1 face)
Welding depth	3.0+3.0mm (2 faces)
Cables	2*3m*150mm^2 (2 faces)
Cables	2*2.5m*75mm^2 (1 face)
Packaging Size	66*78*130cm(0.67CBM)
Gross Weight	145kg
Packing	Polywood
Certification	**ISO CE**

Packaging list(tools) of TELR-7C

								
Bracket *(102003)*	Cable with gun 75mm^2,2m *(101007)*	C-clamp arm 145*90mm *(588181)*	Negative cable 75mm^2,2m *(101008)*	ALU pulling hammer *(103002)*	No gripping pulling bar *(101006)*	Pneumatic pulling hammer *(101010)*	Traditional tools unit *(101011)*	Multihook heads *(101012)*
								
Traction pin *(101015)*	twist rings 50pcs *(101015)*	straight rings 50pcs *(101015)*	welding nozzles 5pcs *(588964)*	welding nozzles 5pcs *(588965)*
